

JANUARY 2023

The **Investors Mutual Future Leaders Fund** provides exposure to an actively managed portfolio of quality ASX listed Australian shares outside the Top 50. The Fund aims to provide attractive investment opportunities for investors seeking medium to long term capital growth with income.

FUND PERFORMANCE

- The Fund had a very strong month in January, up +4.6%, although behind the benchmark's return of +6.4%.
- Many of the companies in the Fund posted strong gains over the month, partly recovering from the broad-based selloff in small caps last year, which had left many companies looking oversold. For the month Myer, Ampol and Codan all rallied significantly after positive trading updates while Nine Entertainment, HT&E, GUD, and Integral Diagnostics also performed strongly.
- The main reason the Fund lagged the benchmark was a very strong performance by resources companies, particularly EV-related stocks and gold stocks, which rose on China's reopening, strong lithium prices and optimism that inflation is retreating.
- We remain wary of the recent strong sharemarket rally and anticipate further volatility given that markets seem to now be factoring in an orderly retreat from high inflation as well as an early easing of interest rate increases. We believe there are risks to this scenario. We continue to position the Fund in well-established, profitable companies with strong market positions and attractive valuations. Reporting season next month will provide a clearer picture of how companies are faring in this environment.
