Please note: Prior to June 4 2007 the Fund was known as the Deutsche Australian Equities Alpha Fund and performance up to this date was achieved using a different investment process.

Since June 4 2007 the Fund's benchmark has been the S&P/ASX200 Accumulation Index. In line with the revisions to the ASX Index series on 3 May 2000 the S&P/ASX 300 Accumulation Index was adopted as the Fund's performance benchmark. Benchmark calculations prior to this date are based on the ASX All Ordinaries Accumulation Index.

Prior to 19 April 2021 the Fund was known as the Aberdeen Standard Australian Equities Fund. On 19 April 2021 the fund description and fund strategy changed to utilise Aberdeen Standard Investments' Sustainable and Responsible Investment process to invest primarily in a concentrated portfolio of around 20-35 companies that are listed or proceeding to listing on the Australian Securities Exchange (ASX) and have the potential for capital growth and increased earning potential. The Fund was renamed Aberdeen Standard Focused Sustainable Australian Equity Fund on this date. Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities (for example, miners) within the Fund's benchmark or universe of potential investments. As a result, fund performance may vary significantly from the benchmark, the S&P/ASX 200 Accumulation Index.
