Fund commentary

- Positive contributors to performance for the month of July included Stanmore Resources, ING Group, ANZ Group, Challenger and Woodside.
- Detractors to monthly performance were Star Entertainment, REA Group (short) and Seek Limited (short).
- There were no new positions initiated during the month however, positions in BHP Group and Stanmore Resources were increased. BHP Group and Stanmore were the two largest positions in the portfolio at month end.
- No equity positions were exited during the period.
- The net invested position at month's end closed at 84%, with a net equity position of 74% and further 10% held in credit securities. We continue to see long term value in our current portfolio and with cash and liquid credit securities of 26%, are well positioned to take advantage of new opportunities as they arise.

Important Notice

This Report is issued by PM Capital Limited ABN 69 083 644 731 AFSL 230222 as responsible entity for the PM Capital Australian Companies Fund (ARSN 092 434 467, the 'Fund'). It contains summary information only to provide an insight into how we make our investment decisions. This information does not constitute advice or recommendations, and is subject to change without notice. It does not take into account the objectives, financial situation or needs of any investor which should be considered before investing. Investors should consider the Target Market Determinations and the current Product Disclosure Statement (which are available from us), and obtain their own financial advice prior to making an investment decision. The PDS explains how the Fund's Net Asset Value is calculated. Past performance is not a reliable guide to future performance and the capital and income of any investment may go down as well as up due to various market forces. The investment objective is not a forecast, and is only an indication of what the investment strategy aims to achieve over the medium to long term.

1. Returns are calculated from exit price to exit price assuming the reinvestment of distributions for the period as stated and represent the combined income and capital return. The Index is the S&P / ASX 200 Accumulation Index. See www.asx.com.au for further information on the Index.
