Fund Summary

OnePath Diversified Fixed Interest Trust Wholesale

30 April 2023

Market and portfolio review

The collapse of Silicon Valley Bank in mid-March dwarfed concerns over re-accelerating inflation and prompted a sharp rally in government bonds.

Overall the trust underperformed over the quarter. The main detractors were PGIM and Bentham which underperformed the benchmark over the quarter. Janus Henderson and Western Asset Management contributed positively to performance, performing well above the return of the benchmark. Brandywine also contributed favourably to performance.

Over the year the fund was a strong performer as its diversified portfolio construction, which targets exposure to select fixed income building blocks, added value. Manager alpha has also been positive as the focus on high quality managers has benefited the fund.

Future investment strategy

The fund is maintaining a defensive position to both interest rates and credit. Whilst the fund overall is short duration, the fund has been taking the opportunity to reduce the short as yields have sold off. The fund has also been re-allocating away from short duration benchmark managers to long duration benchmark managers. The fund is also shifting to a more defensive stance on credit. Whilst the fundamentals and technicals for credit are strong, we feel with the economic outlook being uncertain, it is prudent to be more conservative on credit.
