Antares Listed Property Fund

April 2021

Fund description and investment return objective

The Fund is an actively managed portfolio that primarily invests in property securities that are listed (or expected to be listed) on the Australian share market. The Fund may also invest in listed Australian companies that operate in the property industry such as listed property development and funds management companies, as well as listed infrastructure companies, where the income and assets are property-related in nature.

The Fund's objective is to outperform the Benchmark (after fees) over rolling five-year periods.

Fund commentary

The Antares Listed Property Fund delivered a return of 3.0% (net of fees) for the month of April 2021, ahead of the benchmark S&P/ASX 200 AREIT Total Return Index which increased by 2.9% during the month.

Retail sector AREITs declined by 2.6%, but the other AREIT sectors all increased, led by Diversified AREITs (+5.6%), with Office up by (+4.5%) closely followed by Industrial AREITs (+4.4%).

Being underweight Vicinity (VCX), overweight Mirvac (MGR) and not owning Charter Hall Retail Trust (CQR) contributed to performance. Detracting from performance were underweight holdings in Stockland (SGP) and Charter Hall Group (CHC) and an overweight position in GPT.

Our security selection and portfolio construction process continue to be driven by our proprietary, bottom up research. For the A-REITs, this analysis focuses on the fundamental factors of portfolio quality, management, balance sheet strength and valuations. We are also very focussed on supply constraints within the property sub-sectors and especially for the properties held by A-REITs in our portfolio. In general, we are concerned about the supply of space in office markets and select industrial markets, as well increasing competition in retail from the online shift. We believe our focus and strategy to own high quality assets and businesses that can deliver solid earnings growth will serve us well over the medium term. First and foremost, our preference remains for well managed physical asset owners with relatively better-quality assets that could demonstrate solid earnings growth – GPT, Mirvac, Transurban and Goodman Group. In addition, we remain positive on select small cap REITs – Ingenia, Hotel Property Investment and Waypoint REIT.
