Fixed Income – International	– 20.07%
Other – Growth and Defensive Alternatives	– 2.89%
Commodities – International Listed	– 0.58%
Cash	– 11.47%

## Fund update

The BT Wholesale Multi-manager Moderate Fund produced a positive return over the month of February.

Reflation trades dominated the market on the prospect of Biden's \$1.9 trillion fiscal stimulus and vaccine rollout. The improved growth and higher inflation expectations drove global bond yields higher. Subsequent weak demand at the US 7-year Treasury auction saw the bond market sell off sharply. The US 10-year Treasury benchmark yield hit its highest level since March last year (1.40%).

Over the month the US 10-year Treasury yield moved 34bps higher, the Australian 10-year government bond yield jumped 78bps higher, while credit spreads marginally narrowed. As a result, International Fixed Interest as measured by the Bloomberg Barclays Global-Aggregate Total Return AUD Hedged Index returned -1.6% and the domestic fixed interest market, as represented by the Bloomberg Ausbond Composite 0+ Yr Index returned -3.6%.

Equity markets had a strong start of the month driven by positive sentiment, before stalling due to the bond market sell-off. Long 'duration' growth stocks underperformed value stocks given the current reflationary market expectations. The MSCI World ex Australia Net Return AUD Hedged Index returned 2.7% and unhedged international equity exposure returned 1.6%, as the Australian Dollar appreciated against most developed market peers over the month.

The Australian equity market, as represented by the S&P/ASX 300 Accumulation Index, gained 1.5% over the month. Emerging market equities underperformed developed markets in AUD terms, with the MSCI Emerging Markets Net Total Return Index returning -0.1%. Domestic listed property returned -2.5% whereas global listed property returned 2.7%, as measured by the S&P/ASX 300 A-REIT Index and the FTSE EPRA/NAREIT Developed AUD Hedged Net Total Return Index respectively.

Funds with higher allocations to growth assets outperformed those with a lower allocation to growth assets.

## Asset allocation ranges
