A Class | 30 September 2022

The factsheet is published by GQG Partners LLC ("GQG"), an authorised representative (number 001283168) of GQG Partners (Australia) Pty Ltd, ACN 626 132 572, AFSL number 515673.

This factsheet may only be accessed and used by persons who are 'wholesale or retail clients' domiciled in Australia or 'wholesale investors' domiciled in New Zealand. If you are not sure if you satisfy or understand this limitation, please contact us or your adviser.

Investment Objective and Strategy

The GQG Partners Emerging Markets Equity Fund seeks long-term capital appreciation.

As an investment manager for the Fund, GQG seeks to invest in high-quality, attractively priced companies exhibiting competitive advantages. Our investment process aims to evaluate each business with a focus on financial strength, sustainability of earnings growth, and quality of management. The resulting portfolio seeks to manage the downside risk of equity investments while providing attractive returns to long-term investors over a full market cycle.

Growth of \$10,000 Since Inception

Chart assumes investment of 10,000 on 05/07/2017. Net performance assumes reinvestment of distributions and capital gain distributions and does not reflect sales charges. Past performance is not a reliable indicator of future performance.

The performance data quoted represents past performance. Past performance is not a reliable indicator of future performance. Returns greater than one year are annualized. Returns are presented both gross and net of fees and are based on end of month hard close redemption prices assuming the reinvestment of all distributions and capital gains. Gross performance is calculated after the deduction of actual trading expenses and is net of taxes withheld on foreign dividends, interest and capital gains. Net performance is calculated in same manner as gross performance but also deducts the stated management fee, which includes management and other administrative fees (custody, legal, administration, audit and organisation fees). Current Fund performance may be lower or higher than quoted performance. The investment return and principal value of an investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. There can be no assurance that the Fund will achieve its investment objective. The performance data contained in this document is calculated by a data provider whose calculation methodology may result in Fund performance that is lower or higher than the performance quoted in Fund reports. 'Fund AUM (mm)' refers to Fund gross assets under management in \$A millions.

Top 10 Countries (% portfolio equity)

Portfolio holdings are subject to change without notice. Cash and cash equivalents represented 6.06% of the total portfolio. Top ten holdings identified and described do not represent all securities purchased, sold, or recommended for inclusion in the Fund and no assumption should be made that such securities or future recommendations were or will be profitable in the future. Country allocations reflect the country of risk of the securities in the portfolio as assigned by Morningstar, though GQG's portfolios are constructed based upon GQG's assessment of each issuer's country of risk exposure, which may not be the same as Morningstar's country assignment.
